Customer Safety Assurance

We as an organization have been following any developments of COVID-19 mitigation best practices based on WHO (World Health Organization), and Federal, Provincial and Municipal guidelines from the inception of coronavirus. We are still operating on our normal schedule but have implemented special precautions to prevent the spread of the virus:

- We have increased the measures of sanitization at our facility and our courtesy vehicle fleet for your peace of mind and satisfaction.
- We are disinfecting and sanitizing our facility using industry-approved products and have greatly increased the frequency in which we are wiping down and cleaning all touch points within our dealership.
- We are utilizing a disinfectant to clean vehicle steering wheels, armrests, door handles and all touch points within a vehicle after it's been through our dealership.
- Hand sanitizers have been provided to each staff member to ensure they are cleaning their hands as often as possible.
- For the safety of our customers and our staff, our sales people will not be accompanying any customers on a test drive.
- We have suspended our shuttle service until further notice to help protect our customers and staff.

In addition, we have asked our staff to follow these new principles:

- Always wear protective gloves when inspecting and/or working on vehicles.
- We have replaced our usual welcoming and congratulatory practices (handshakes, hugs, and/or any body contact) with just verbal greetings.
- We have requested any staff member who has travelled recently to self-quarantine for the safety of their co-workers and our clients. - To maintain safe distance from one another and our guests whenever possible.

Below you will find our hours and contact information, we'd like to thank you again for taking the time to read and review this letter.
